

News Release

On the morning of Saturday, June 12th, Eric Hendrick received an emergency call to his store on East Dixon Boulevard in Shelby. Upon arriving he noticed some large appliances had been moved around. Upon further investigation Mr. Hendrick came across a creature like he had never seen before. It was huge! With human like features! Walking on its hind legs. The creature was later identified as “Knobby”. It was the famed creature that had been sighted in northern Cleveland County. It seems that even “Knobby” knows a good deal when he sees one.
